

February 28, 2024

I am writing to you today as a concerned resident of the City of Gilman to express my strong support for the funding of a critical sewer infrastructure project in our community. As someone who relies on clean and safe water for my family's health and well-being, I understand the vital importance of maintaining and improving our sewer system.

Our city's sewer infrastructure is aging and in desperate need of attention. These problems not only threaten the quality of our drinking water but also lead to costly repairs, service interruptions, and environmental damage.

Investing in our sewer infrastructure project is not just a matter of convenience; it is a matter of public health and safety. By rehabbing and replacing current infrastructure, we can ensure that every resident has access to clean, safe, and reliable water.

Furthermore, funding these projects will have a positive impact on our community in several ways. It will create jobs, stimulate economic growth, and attract new businesses and investments. It will also demonstrate our commitment to environmental stewardship and sustainability, protecting our natural resources for future generations.

Please consider the needs of residents like me and make the necessary investments to ensure a healthier and more prosperous future for all.

Sincerely,

Name TOM RUTH POSTERICK
