RE: 2025 Community Project Funding – County Road 19 Intersections in Hanover

Honorable Congressman Tom Emmer,

Please receive this letter as my indication of support for much needed safety updates to intersections of County Road 19 through the City of Hanover. Improvement of intersections with Hennepin County 117/203 and Hennepin County 123 will be of regional benefit for residents, commuters, business traffic and pedestrian users of regional park and trails from throughout our growing communities. Recent major accidents with injuries have only increased concerns for safety, navigability and function for the strange and dangerous intersections.

CSAH 19 is an important north-south corridor through growing 6th District Wright County communities of Otsego, Albertville, St. Michael and Hanover. Significant growth in all of these communities as well as communities south and east has caused concerns for worsening safety conditions for our residents commuting daily through County 19. Upgrades are needed to the County 19 intersections with Hennepin County 117/203 next to the regional Crow Hassan Park, and at the nearby intersection with Hennepin County 123. Solutions have been identified by engineers including roundabouts at each intersection, but funding is not available through the County or other sources for the necessary improvements.

On behalf of the City of Hanover's application for Community Project Funding I strongly support their application and will appreciate your support in helping to get this project completed.

Sincerely,

A handwritten signature in black ink that reads "Joe McDonald".

Significant growth in all of these communities as well as communities south and east has caused concerns for worsening safety conditions for our residents commuting daily through County 19. Upgrades are needed to the County 19 intersections with Hennepin County 117/203 next to the regional Crow Hassan Park, and at the nearby intersection with Hennepin County 123. Solutions have been identified by engineers including roundabouts at each intersection, but funding is not available through the County or other sources for the necessary improvements.

We support the City of Hanover's application for Community Project Funding through the federal process and appreciate your support in helping to get this project completed.

Sincerely,

Nadine Schoen
District 4 Commissioner

It was great to see you last week at Wright Tech x

RE: 2025 Community Project Funding – County Road 19 Intersections in Hanover

Honorable Congressman Tom Emmer,

Please receive this letter as my indication of support for much needed safety updates to intersections of County Road 19 through the City of Hanover. Improvement of intersections with Hennepin County 117/203 and Hennepin County 123 will be of regional benefit for residents, commuters, business traffic and pedestrian users of regional park and trails from throughout our growing communities. Recent major accidents with injuries have only increased concerns for safety, navigability and function for the strange and dangerous intersections.

CSAH 19 is an important north-south corridor through growing 6th District Wright County communities of Otsego, Albertville, St. Michael and Hanover. Significant growth in all of these communities as well as communities south and east has caused concerns for worsening safety conditions for our residents commuting daily through County 19. Upgrades are needed to the County 19 intersections with Hennepin County 117/203 next to the regional Crow Hassan Park, and at the nearby intersection with Hennepin County 123. Solutions have been identified by engineers including roundabouts at each intersection, but funding is not available through the County or other sources for the necessary improvements.

We support the City of Hanover's application for Community Project Funding through the federal process and appreciate your support in helping to get this project completed.

Sincerely,

Re: Support for Fiscal Year 2025 Community Project Funding
County Road 19 Intersections in Hanover

Honorable Congressman Tom Emmer,

Hennepin County District 7 has been notified that the City of Hanover is requesting Fiscal Year (FY) 2025 Community Project Funding for multimodal safety improvements at two intersections along County State Aid Highway (CSAH) 19 within the Cities of Corcoran and Hanover. These intersections experience high user activity as they connect people driving from Ostego, Albertville, St. Michael, and Hanover across the Crow River into Hennepin County. In addition, a high number of people walking and biking cross through the intersection given their close proximity to the Lake Independence Regional Trail and the Crow Hassan Regional Park Reserve.

- CSAH 19 & CSAH 123
- CSAH 19, County Road (CR) 117, & CR 203

As proposed, it's anticipated this project would introduce new intersection control to promote traffic calming, improve pedestrian crossings, and manage turning movements in an effort to reduce fatal and severe crashes.

These improvements align with the county's Toward Zero Deaths program. Furthermore, this project will promote future development opportunities in the area. My office supports this request for FY 2025 Community Project Funding that aims to promote multimodal safety for Hennepin and Wright County residents. I kindly ask that the City of Hanover include county staff in the project development process to discuss potential intersection modification strategies to ensure project success. My office looks forward to working together to improve the accessibility, mobility, and safety for all modes throughout the area.

Regards,
