

April 12, 2021

Dear Anoka County Board of Commissioners,

Federal Cartridge Company—nearing 100 years of continuous operation in Anoka and Coon Rapids, MN—supports the US Highway 10 improvement project. A third lane addition in Coon Rapids would help ease traffic for the residents of the city and reduce congestion for transport of our products and supplies.

We are proud to employ approximately 1,500 hard-working people at our two facilities in Anoka/Coon Rapids and have successfully grown our business here in recent years. We support and appreciate the continuous upgrading of the area and its traffic flow to make doing business here better now and into the future.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. Vanderbrink".
